

# ReadySet

## TRACK

**RS Track** is our Loaner & Consignment Management solution, designed to simplify Vendor inventory documentation and tracking, primarily for the Sterile Processing department. **RS Track** includes a Kiosk which can be used by Vendor representatives to capture images, load documents and generate asset tags for approved implants and instruments prior to sterilization.

### **Features:**

- Cloud-based & HIPAA compliant
- Accessible from any device
- Inventory images/contents/IFUs
- Check-in Kiosk
- Autoclavable inventory label
- 24/7 Technical Support

### **Benefits:**

- View real-time status of Vendor inventory
- Minimal hardware required
- Electronic documentation of inventory details
- Self-Service tray check-in for Vendors
- Time stamped labels for all Vendor inventory
- Unparalleled support for Staff and Vendor users
